reannot tell you how I suffered with my head, and with nervousness and womanly tro-bles.

Our family doctor told my husband he could not so me any good, and he had to give it up. We iried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardul is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardul today. Delay is dangerous. We know it will help yott, for it has helped so many thousands of other weak women in the past 50 years.

TEMPERATURE WAS 103 DEGREES YESTERDAY

GREATEST HEAT OF YEAR AND NO RELIEF IN SIGHT

IS OFFICIAL

Statement Given Out Las! Night By W. W. Russell-Has Risen Steadily Past Four Days.

Mr. H. H. Russell, who has charge of the local weather bureau, stated last night that the thermometer yes-terday registered 103 degrees, the greatest temperature of any day this year.
For the past few days the thermo-

meter has been going up at the rate of two degrees a day. Tuesday it was

of two degrees a day, Tuesday it was 97, Wednesday it was 99, Thursday it mas 101 and yesterday 103.

Yesterday was two degrees hotter than any other day this year in Anderson. As stated above, Thursday the thermometer registered 101, and the temperature wa salso this high one day about two weeks ago.

Owing to the fact that the weather bureau is not in the city where the buildings block the breezes, and where the air does not become filled with the hot fumes from the pavement, doubtless it was a great deal hotter on the streets around the square than elsewhere.

square than elsewhere.
Complaints about the heat were heard on all sides yesterday. Early in the morning the rays of old So! warned everyone to prepare for the hottest day of the season for by eight o'clock the heat was more noticeable for the time of day than of any previous day.

Owing to the fact that this entire section is awful dry, the heat pene-trates more than if there was a little moisture mixed along with it. The sidewalks yesterday were almost un-bearable to the feet if one stayed on them long at a time and although the streets were sprinkled quite often, the water quickly dried up and the hot steam could be felt.

Another thing that makes the heat so noticeable and so uncomfortable

in Anderson this summer is the fact that there is more dust than usual. The streets being torn up naturally caues more dust and there is no way to remedy this trouble.

The weather forecast last night predicted little change in tempera-

Says Russia Will Pay Up Her Debts In the August American Magazine a well known American banker writes hibited at the Paris Salon brought him a gold medal and a flattering let-ter from the French painter Millet. ing and important facts as to Russia's credit, and the frightful cost o the war. He says in part:

"Some people are inclined to have misgivings as to Russian credit, but I believe such fears may be dismusse.

No nation of 170,000,000 people, with
the huge resources that Russia has,
is going to be unable to pay its
debts. Further, Russia has in the past shown scrupulous regard for her obligations. Throughout the Crimean War, with Great Britain fighting as a bitter enemy, Russia scrupniously sent gold to London to pay the coupons on her bonds that were held by English investors. That was a notable testimony to her endeavors at all costs to preserve her financial integ-

rity.
"As to England, she is looking not help. only after her own affairs, but 'lelp ing others also. She loaned \$60,000, 00' to Russia early in the war; \$50, 000,000 to Belgium; \$4,000,000 to Ser bla. She has loaned almost \$100,000, 000 to France. To her own people a few weeks ago she offered a loan of lew weeks ago she offered a loan of almost \$2,000,000,000. It was over-subscribed. At the beginning of the war the British national debt was something like \$3,000,000,000. Since that time, taking into account new funded indebtedness and short-term treasury bills, it has doubled."
